Phone number(s)

Location of tree if different than address above:

Street

City

State

Zip code

The above tree(s) is/are submitted for registration as:

Historic

Size

Aesthetic

Environmental

Other

All trees registered must measure 9 1/2 Feet in Circumference which is representative of 100 years of age. We will make an appointment to come out to measure and record the necessary data for trees that qualify. We will provide you with 2 documents, one to keep from us and one to send on to the Societe Des Arbres (State Registry) for full registration. We will provide you with Individual Certificates for each tree at no charge. Plaques can be ordered in two sizes : 4" x 4" @ \$12.00 ea. or 4" x 6" @ \$14.00 ea. Donations are welcome.

A Simple Sketch of the location of the tree(s) on the property with reference to the street(s), house/slab or any other markers will help us in locating each tree if you are unable to be present when we come out. Upon receiving this request we will set up an appointment with you to meet you at your property or receive permission from you to walk on your property. We respect all property owners rights to privacy as we do not trespass on neighboring properties if the tree(s) limbs extend beyond your property line. Requests are taken in order as we receive them. If we cannot reach you to review/receive your documents they are kept on file at the Hancock County Historical Society. They can be reached at 228-467-4090.
